Disposable Aerosol Masks

Fairmont Medical offers a complete range of Nebuliser Masks and components.

Fairmont Medical's **Aircair** Aerosol Mask range is the only Australian designed and manufactured aerosol therapy devices offered to the market. This guarantees the up-most quality and continuity of supply that is demanded by hospitals today.

The **Aircair** aerosol range is available in a variety of configurations, with our without tubing to suit children and adult patients.

- Easy-screw nebuliser system for opening and closing
- Balanced to stand alone when filling with medication
- Easy to read graduation marks
- Pliable nose clip helps keep mask in place
- Manufactured to ISO 27427:2013 standards
- Manufactured from phthalate free PVC
- Available in a variety of sizes with our without tubing
- Single use, ready to use
- Quality Australian designed and manufactured

Fairmont Medical's Australian made Acorn nebuliser, manufactured from durable polycarbonate.

- Operates at 90° angle
- Easy grip threaded system for assembly
- Easy to read volume indicator
- Vapour size within 0.5 microns to 5.0 microns
