

dossflo

Orthopaedic Suction Sets

Fairmont Medical's **Dossflo** sets come complete in a variety of combinations which provides quality, cost effective removal of bone debris during major orthopaedic joint surgery. Our one way insertion filter design allows for continuous suction when it counts. Quick spare filter system exchange adds to the simplicity of use.

- Variety of choice in probe lengths and styles: straight and curved 15cm and 23cm lengths
- Easy to insert one-way filter design
- Screw threaded system allows easy setup
- Rounded atraumatic tip design
- Optional 3m suction tubing available
- Single use, sterile, ready to use
- Phthalate (DEHP) and latex free
- Quality Australian designed and manufactured

Fairmont Medical's Disposable Orthopaedic Suction Sets provide an ideal solution to the avoidance of bone debris blockages during suction.

dossflo *"Saves valuable surgical operating room time."*
